A Draft Philosophical Essay

EU-ART&SCIENCE

Mario Ludovico

was born in Rome, Italy, in 1936. After a biennium of studies in mathematics and physics at the State University of Bari, he graduated in Architecture & Town/Regional Planning at *La Sapienza University* of Rome. As an independent professional, he has participated in the preparation and implementation of either architectural or regional development plans across five continents, while never neglecting his interest in physics, particularly concerning gravitation.

In Years Sixty, he was an active *amateur* member of the *Centre Européen pour les Recherches sur la Gravitation* (CERG), an independent international research centre established, upon the initiative of *out-of-the-mainstream* scientists from various countries, under the High Patronage of the Italian President of the Republic.
